

## Demystifying Colorado Water for Legislators "Level 201" - Municipal Water Efficiency, Growth and Affordability Agenda

April 12, 2023

7:30-8:45am

Colorado State Capitol Room HCR0112

*This session will cover an overview of the state's vision for Vibrant Communities in the Colorado Water Plan plus state programs to foster conservation and efficiency, including water conservation reporting, water loss accounting, incorporation of land use in water efficiency plans. It will also include an overview of how water is supplied to new development and how the cost of water affects the cost of housing, plus a look at various mechanisms to increase municipal water efficiency while lowering demand at the county, municipal and special district level.*

**7:30am**      **Welcome and Overview**

*Jayla Poppleton, Executive Director, Water Education Colorado*

**7:35am**      **Intro to Municipal Water Challenges and Priorities**

*Kevin Reidy, Senior Water Conservation Specialist, Colorado Water Conservation Board*

**7:45am**      **Water, Growth and Affordability**

*Brett Bovee, President, WestWater Research*

**8:05am**      **How We're Saving Water in Cities and Neighborhoods**

*Mark Marlowe, Director, Castle Rock Water*

*Andrea Cole, General Manager, Dominion Water and Sanitation District*

**8:45am**      **Wrap-Up and Adjourn**

*Doug Kemper, Executive Director, Colorado Water Congress*
